PPRESTIGE ACCESS, CREATED IN
SAPPHIRE AND VERIFIED ON ARRIVAL

A CREDENTIAL WORTHY OF THE SPECIAL GUEST LIST

Aeternum Verify is a complete credential, presentation and verification service for exclusive guest tiers. Each guest receives a unique prepared lab-grown sapphire in premium presentation, configured for the occasion and recognised by the dedicated Aeternum Verify reader on arrival.

It can serve as the principal credential for an intimate occasion or as a distinguished VVIP layer alongside the organiser's existing ticketing and access arrangements. Ordinary attendees and mass-ticketing systems remain unchanged.

THE MANAGED INVITATION AND ARRIVAL JOURNEY

The visible experience remains simple because the preparation, quality assurance and operating decisions are resolved before the guest arrives.

TWO DEPLOYMENT MODELS

PRINCIPAL CREDENTIAL

for private dinners, launches, ceremonies, destination occasions and invitation-only events.

DISTINGUISHED VVIP LAYER

for selected guests within concerts, sport, festivals, awards, hospitality programmes and major public occasions.

PRESTIGE

BEFORE ARRIVAL

The guest receives a substantial unique sapphire credential in luxury presentation. Event identity, and selected invitation personalisation make the distinguished reveal part of the occasion.

NO CODE, NO CHIP, NO BATTERY

The identifying pattern is permanently formed in the sapphire structure and instantly recognised through aeternum reader pattern recognition. The credential remains a visually pure gem.

A GLAMEROUS, RITUAL ARRIVAL

The sapphire is placed into the dedicated reader. The staff interface returns a simple event-approved result without exposing technical diagnostics.

TURNKEY EVENT DELIVERY

Assignment, finished-stone, quality check and authenticity seal, premium presentation, intuitive reader configuration, staff briefing, backup provision and site deployment support are coordinated by Aeternum.

RETAINED, NOT DISCARDED

After arrival the sapphire returns to the guest as an enduring object of event identity and personal memorabilia.
